

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. PREFACE.

—The *List of Synonyms*, compiled with the view of furnishing needed information concerning the names borne by a number of the organizations in the volunteer service of the United States during the late war in addition to their regular or final designations, has been prepared after careful search of the records of the Adjutant General's Office..

Under the general title of "Synonyms" is herein comprised, as a rule, "local names" proper, prior official designations, and, in cases of batteries of light artillery, independent companies and battalions, and in a few other instances, designations of organizations by the names of their commanding officers. It will be observed that the exceptional designations entered not coming strictly within these classes (some of which are given as merged into others), relate mainly to organizations with unusual, though regular, names, and are accordingly included.

A few of the synonyms given refer to organizations which, though not mustered into the service of the United States, served for short terms under orders of United States officers, and were recognized and indirectly paid by the United States; *i. e.*, paid by their respective States, which were subsequently re-imbursed by the United States, and for which organizations there are rolls on file in this office.

NOTE.—The INVALID CORPS was organized, by companies, in pursuance of General Orders, No. 105, dated War Department, Adjutant General's Office, April 28, 1863; was divided into two classes or battalions, by General Orders, No. 212, dated War Department, Adjutant General's Office, July 9, 1863, and was organized into twenty-four regiments, by authority of Secretary of War, dated September 5, 1863. In forming the regiments Companies A to F, inclusive, were taken from the First Battalion, and Companies G to K, inclusive, from the Second Battalion. The name of the organization was changed to VETERAN RESERVE CORPS, by General Orders, No. 111, dated War Department, Adjutant General's Office, March 18, 1864. The Second Battalion companies were at different times from March 7, 1864, to January 1, 1865, inclusive, detached from the regiments and their places filled by First Battalion companies. Under the provisions of General Orders, No. 155, dated War Department, Adjutant General's Office, October 26, 1865, most of the officers and enlisted men were discharged, when, pursuant to Circular No. 53, dated War Department, Adjutant General's Office, December 1, 1865, those remaining in the various regiments and companies were consolidated into seven independent companies. These companies were mustered out by detachments at different dates in 1866.
